SWELDD Group Charter: Member's responsibilities

All members agree to:

1. respect group members, demonstrate sensitivity and encourage learning
2. be fully committed to the group task and your individual agreed responsibilities
3. work according to the agreed timeframe
4. give and receive feedback about your work and participate in group discussions
5. attend all meetings unless unavoidably prevented
6. agree to resolve conflict according to the group's agreed process as soon as it arises
7. ensure that all group members contribute equally to the task by addressing problems with tasks as they arise
8. agree to collectively read and edit the final group report or essay
9. provide contact details and respond to group communications as required

This is based off the initial tasks allocated and the respective percentages in relation to the tasks. If you have any issues with the calculations of the figure relating to the tasks… This can be discussed.

I know this looks bad as I am the highest contribution. I have tried to make it fair and identify where the calculations come from.

If anyone is not finished, disagrees with the calculations or there are additions to the work in the report or on GitHib etc, please raise and we can reallocate some of the contribution percentage.

Thoughts?

Jordan - I think that's the best way to work it out as it's directly related to the weighting of each section (or how much effort is required for each section).

Francis - All
Suki - I think it looks good, nothing to comment on.
Sophie -
